

## Tennis West Schools Update

Dear Schools in the Midwest Region

Heading into the **2017/2018 summer**, Tennis West would like to **support regional schools** in delivering tennis as part of the school's PE curriculum. My main focus is to engage and drive a greater participation of schools, teachers and students in the sport of tennis.

In partnership with the Australian Sporting Schools Initiative, Tennis West would like to assist schools in **providing them with a large ANZ Tennis Hot Shots equipment pack valued at \$800**, as well as additional **funding and resources for coaching, at no cost to the school**.

Schools delivering tennis as part of their health and physical education curriculum have the opportunity to obtain **a free 19" tennis racquet for each student in pre-primary**, as well as further benefits listed on the following page. Additionally, we would like to promote and have tennis a part of the regions **inter-school sports competition in term 1, 2018** and will be providing support to make this happen.

If you would like to deliver tennis at your school, or wish to be a part of the regional state championship playoffs, please don't hesitate to contact me via the details below.

Kind Regards

Jason Marrable
